

838 win doctoral fellowships in Canada Council competition 269 from University of Toronto

The Canada Council has announced that 838 students in the humanities and social sciences have been granted first awards in the annual doctoral fellowship competition. The winners were chosen from a field of 2,437 qualified students.

Of the 538 winners, 269 studied this past year at the University of Toronto and 263 of them have elected to take their doctoral work on this campus. They will be joined by 22 winners from other universities, all in Canada except one now at Oxford, who chose U of T.

The entrants in the competition were screened by special committees at Cana-

dian universities and by 11 committees of specialists named by the Canada Council.

In addition to the first awards, the Council granted 1,035 renewal fellowships, making a total of 1,837 doctoral fellowships, worth \$8.5 million, to be held in the 1973-74 doctoral year. The renewals enable previous winners of awards to continue work on their doctoral programs.

Worth between \$3,500 and \$5,500 each, the fellowships are to help further the education of Canadians for careers in university teaching and research in the humanities and social sciences.

3-day Ministry seminar focuses on learning rather than education

A three-day seminar on post-secondary learning will begin on Monday, June 11, in Hart House under the auspices of the Ministry of Colleges and Universities. The Ministry expects up to 400 delegates, with a variety of backgrounds, from across the province.

Although admission is by invitation, members of the University of Toronto community who would like to attend the conference may still be able to do so by telephoning Georges Amyot at the Ministry of Colleges and Universities, 925-3236.

The Minister, the Hon. Jack McNie, explained the objectives of the sessions in a recent statement to the Legislature:

"The purpose of the seminar is to consider the development and co-ordination of all forms of post-secondary education that aim to meet the learning needs of the individual in Ontario during the next decade.

"We are not going to look at just the conventional post-secondary forums of learning, the colleges and universities and other such institutions. We are also going to look at the potential for development in the open sector, which involves our libraries, museums, and other cultural agencies.

"Our focus is to be *learning*," which the report of the Commission on Post-

Secondary Education in Ontario points out is an individual, personal experience. This compares with *education*, which is a social process organized by institutions, governments, teachers and programs of study. . . .

"Many of the decisions that will affect the future of post-secondary education in Ontario will be made in this House. It is our hope that some of the ideas and viewpoints expressed at this free-wheeling seminar might help us to make such decisions wisely."

After a plenary session in Hart House Theatre at 9 a.m. Monday, at which the Minister will speak, students of Sheridan College will give an audio-visual presentation on the changing expectations and attitudes of students, and Ronald Ritchie, senior vice-president, Imperial Oil Limited, will give the keynote address, the participants may attend any one of nine concurrent group sessions, which run through Monday morning.

The topics and the speakers are: "The learning process and the age of the student", Dr. Roby Kidd, OISE; "Teaching and research activities in the universities of the future", Dr. T. L. Batke, University of Waterloo; "The needs of native peoples at the post-secondary level", Miss Rosemary Moffitt, Donner Native Scholarship Program; "Graduate (See page 4, col. 1)

Retiring? Going on sabbatical? Want to keep in touch?

The Bulletin is delivered in bulk to departments to keep costs within reason and to make it available to most readers on the day of publication. Some departments get too few, some too many - situations that may be corrected by telephoning 928-2102.

Some individual mailings include department heads and a short list of other University officers, staff members based off campus, people in communications, and people with University ties. In the last group are some retired members of staff and the widows of others.

If you are retiring or going on sabbatical, and feel that complimentary copies of the Bulletin would be useful, please complete the following coupon and send it to the University News Bureau, 45 Wilcocks St., University of Toronto, Toronto M5S 1A1. Please PRINT everything and include postal code.

Send U of T Bulletin to:

- ☐ Mr.
☐ Mrs.
☐ Miss.
☐ Ms.
☐ Prof.
☐ Dr.
☐ Rev.

Until cancelled ☐ For 1973-74 session only ☐

CHARLES W. HEFFERNAN will become chairman, Department of Music Education, Faculty of Music, on July 1. He succeeds Prof. Ronald Chandler, who has been acting chairman for a year since the resignation of Prof. Robert A. Rosevear.

Prof. Heffernan was educated at the New England Conservatory of Music and the University of Michigan in Ann Arbor where he received his Ph.D. in music in 1962. From 1962 to 1966 he taught at the University of Washington in Seattle, and established and conducted a number of choral organizations throughout the northwest United States. Since 1967 he has been associate professor of music at Arizona State University where he directed the program of graduate studies in choral music. His book "Teaching Children to Read Music" is in use in many colleges and universities in the U.S., and he has contributed articles on choral music, pedagogy, and historical research to well-known music journals.

Canada Council grant to Presses for Dictionary

A \$307,240 Canada Council grant will assist the University of Toronto Press and Les Presses de l'Université Laval to accelerate publication of the *Dictionary of Canadian Biography/Dictionnaire biographique du Canada*, widely regarded as the most ambitious work of scholarship ever undertaken in Canada.

The grant will help make it possible to expand the editorial offices of the project in Toronto and Quebec and to finance production of one volume a year after 1975-76. The aim is to have a full run of volumes I to XII within the next ten years, completing the present series from the earliest times until the end of the 19th century. The editors will then turn to contributors to Canada's 20th century history.

Since the DCB/DBC was founded in 1959 three volumes of the planned twelve volume series have appeared, each the work of numerous scholars and published in separate English and French editions. Published to date are vol. I, including biographies of persons who died between 1000-1700; vol. II, 1701-1740; and vol. X, 1871-1880. Vol. III, 1741-1770, will appear in spring, 1974.

Financing for the operation has come from the bequest of the Toronto businessman James Nicholson and grants from the Centennial Commission, Laval University, and Quebec's Department of Cultural Affairs. Previous grants from the Canada Council over the years amounted to \$109,800.

According to the Council's Associate Director of University Affairs, Frank Milligan, the series has already been recognized as a national historical resource in the making. He quoted the (London) *Times Literary Supplement*, which in January, 1973, gave the title "Creating Canada" to its review of volume X of the series.

STAFF NOTES

Hygiene

DR. R. J. SHEPHARD presented an invited lecture to the American College of Sports Medicine (Seattle, May 6-9) entitled "Future Research on the Quantifying of Endurance Training". He also presented (with T. Kavanagh) a paper "Interval Versus Continuous Training of Post-coronary patients". On May 10, Dr. Shephard gave a seminar entitled "The Immediate Antecedents of Myocardial Infarction" at the University of Washington, Seattle.

K. H. SNEYD attended the same meeting, presenting the paper "Effects of Frequency of Training on the Fitness of elderly men and women".

Management Studies

PROF. R. J. HOUSE presented a talk entitled "The Quest for Relevance In Managerial Education: Some Second Thoughts and Undesirable Consequences", on April 1. On April 4, he gave the inaugural Address for Shell Chair in Organization Behaviour, U of T. On April 13, he chaired a session on Organization Behavior for meeting of American Institute of Decision Sciences, Michigan State University, East Lansing.

PROF. D. A. OSOROCK chaired a session on "Managing The New Work Ethic" at the annual spring conference of the Personnel Association of Toronto, April 13.

PROF. J. V. POPEST led a seminar on Financial Management at Imperial Oil's Analysis Course at the Nottawasaga Inn, Alliston, Ont. on May 4.

PROF. G. D. QUINN delivered two papers

- "A Basic Insurance Company Model" and "Optimum Allocation of Exhaustible Resources" before seminars at the College of Business Administration, University of Florida, Gainesville, on April 24 and 26.

Dr Harry W Taylor to be Associate Dean at Erindale College

Prof. Harry W. Taylor, a member of the faculty of Erindale College since its beginning, has been named Associate Dean of the College.

The appointment was announced by Dean E. A. Robinson of Erindale. Professor Taylor's appointment, effective May 1, is for three years. The new associate dean will join the present associate deans, Profs. W. J. Huggett and I. M. Spiegel, in working with faculty in the sciences, humanities and social sciences.

Dean Taylor, whose primary interest in research is in nuclear physics, received his Ph.D. from the University of Manitoba in 1954. A fellow or member in six professional science and/or educational associations, the new dean has published more than 50 papers since he began his academic career. He taught at the University of Manitoba, Queen's, and University of Alberta before he joined U of T in 1965.

Seek views on need for an ombudsman

It has been proposed, by John Parker, a representative of the administrative staff on the Governing Council, that the position of ombudsman be created at the University of Toronto. The proposal is now before the Internal Affairs Committee of the Governing Council for discussion and the Committee would welcome any comments from members of the University community. (Copies of the complete proposal are available for perusal on request in the Office of the Governing Council, Room 106, Simcoe Hall.)

Definition of Ombudsman

Traditionally, an ombudsman has been given the responsibility of championing the rights of citizens and protecting their liberties against vast and impersonal government bureaucracies. In the university context, the role of the om-

budsman has varied according to the personality and training of the incumbent: it may be that of advocate, mediator, investigator or fact-finder.

Qualifications of the Ombudsman

The personal qualities of the individual chosen for the position of ombudsman are crucial: authorities on the subject suggest that the ombudsman must be able to command the respect and trust of his constituency; that he must be obviously independent of most campus pressures; and that he must have sufficient stature to be received courteously and helpfully in all levels of university administration.

An Ombudsman at University of Toronto

Mr. Parker feels that academic staff and students in their relations with the University administration have more adequate channels for stating grievances and satisfactory arrangements for deal-

ing with them than do the support staff. While the former would not be excluded from the ombudsman's services, he feels that the office would exist chiefly for members of the support staff not represented by a union. The ombudsman would deal with problems of relationships within the University community.

He would not have administrative powers but would deal, by means of conciliation and good judgment, with a variety of matters. He would attempt to refer people with grievances to the proper channels (where such exist) for dealing with them; he would assist in resolving interdepartmental problems of staff members when asked; he would help to untangle bureaucratic snarls; and he would, at times, make reports to the President regarding the development of improved human relations practices.

Specific Proposals

To improve employee morale and enhance the image of the University as an employer, Mr. Parker recommends:

(a) that a person meeting the criteria mentioned under "Qualifications" be appointed by the President;

(b) that, without excluding other elements of the University, his mission shall be mainly to assist the support staff in their problems concerning relations with the various elements of the University;

(c) that he be given an office with staff in a location which does not identify him directly with University administration;

(d) that he report to the President and that he have the privilege of private communications with his clients. His files and records shall be confidential;

(e) that his term shall be for five years, renewable at the pleasure of the President.

Comments also sought on proposals to improve grievance procedures

John Parker, administrative staff representative on the Governing Council, has introduced legislation calculated to simplify the handling and settlement of grievances in certain areas for the support staff. A special procedure is proposed for grievances arising from classification and compensation actions. Another procedure will deal with alleged violations of University policies and certain government legislation. Each procedure provides for informal settlement, review by a senior University official and final determination by an independent board (rather than by the Vice-President, Business Affairs, as at present). These proposals are now before the Internal Affairs Committee of the Governing Council for discussion and the Committee would welcome any comments from members of the support staff. (Copies of the complete proposals are available for perusal on request in the Office of the Governing Council, Room 106, Simcoe Hall.)

GRIEVANCES CONCERNING CLASSIFICATION AND COMPENSATION

Initiated by:

- (a) staff member not represented by a union or an association with which the University has a collective agreement;
- (b) department head.

Matter grieved:

alleged failure to receive appropriate classification by comparison with other similar positions; alleged erroneous application of pay standards in appointment or promotion; alleged failure to evaluate equitably the relative qualifications of individuals appointed or promoted.

Procedure:

- (a) appeal to and review by the Director of Personnel. If this does not result in a satisfactory settlement within two weeks, then
- (b) the matter may be appealed to a Board of Compensation Review appointed by the President of the University. This Board shall consist of three members of the University and their decision shall be taken by majority vote and shall be binding on both sides. The Board will not consider any matter which has not been through the full previous procedure.

GRIEVANCES CONCERNING VIOLATIONS OF UNIVERSITY POLICY OR GOVERNMENT LEGISLATION

Initiated by:

- staff member not represented by a union or an association with which the University has a collective agreement.

Matter grieved:

alleged violation of University personnel policies; alleged violation of Human Rights Code, Equal Opportunity Act, Labour Standards Act; alleged excessive disciplinary action (including suspension or discharge); other alleged gross inequity. (It is anticipated that every member of the support staff will have a copy of the official University personnel policy.)

Procedure:

- (a) the staff member may take his alleged grievance to the Director of Personnel. If this does not result in a satisfactory settlement within two weeks, then
- (b) the matter may be referred to a Staff Arbitration Tribunal, consisting of three members appointed by the President. Appointees need not be members of the University and the Chairman would preferably not be connected with the University. The Tribunal would review all circumstances concerning the grievance and its decision would be final and binding on both parties. The Tribunal will not consider any matter which has not been through the full previous procedure.

Three Ph D students win \$5000 awards

Toronto graduate students have won three of the six Queen Elizabeth II Ontario Scholarships awarded to outstanding students who are working towards completion of their Ph.D. degrees.

The winners are: Mr. Bunji (Slavey Languages and Literatures); her thesis topic is "Pushkin (Structure of the Pushkin Poems)";

Patricia Jalland (Modern English History) - "The British Liberal Party and the Irish Question 1910-14";

Bruce C. Wilson (Canadian History) - "The Elites of Kingston and Niagara: 1782-1850".

The scholarships, worth \$5,000 each, are financed by the interest on a half-million dollar trust fund established by the Ontario Government in honour of Queen Elizabeth's visit in 1959.

Parkinson's Disease Foundation tribute to Prof Hornykiewicz

A special tribute has been made by the Parkinson's Disease Foundation to Dr. Olek Hornykiewicz, professor of pharmacology in the University of Toronto and head of the division of psychopharmacology in the Clarke Institute of Psychiatry, in recognition of his contributions to the understanding of Parkinsonism.

The text of the tribute follows:

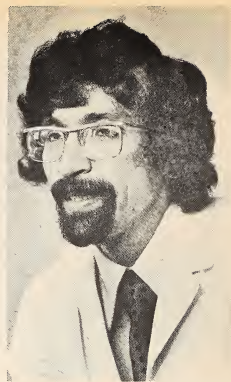

"Distinguished neuropharmacologist, physician, educator, your creative research has uncovered an important biochemical abnormality of the brain. Your discovery has led to a new and rational basis for the treatment of Parkinson's disease. Your research has brought relief and hope to countless persons afflicted

with this disorder and has earned for you their gratitude as well as the acclaim of your peers throughout the world.

"Your pioneering work continues to provide leadership and inspiration to those who seek new improvements to eradicate diseases of the nervous system. Above all, the example of your life is a source of inspiration for young scientists embarking on their careers.

"We delight in this opportunity to add our tribute to the many honors you have already received."

Dr. Hornykiewicz came to the University as a visiting professor in October 1967 and later joined the staff. His research into Parkinson's disease was begun in the 1960s when he was at the University of Vienna.

ASHOK N. SAJJANI, a Ph.D. candidate in the Department of Pathology, has won honourable mention in the recent continent-wide competition for excellence in student medical research, in which Flavio Habal, of the same department, took two prizes, as previously reported.

A decade or so ago, Dr. Henry Movat of the Department of Pathology, showed that in certain diseases, such as rheumatoid arthritis, systemic lupus and gout, tissue injury is caused by enzymes released by the body's own white blood cells. Some six years later, Dr. N. S. Ranaivade, now in the same department but then with the Scripps Clinic and Research Foundation in La Jolla, Calif., showed that similar damage is also caused by positively charged proteins derived from the same white cells. The precise sequence of chemical events leading to this condition is obviously critical to man's understanding of the disease processes and has been the subject of intense study ever since.

Mr. Sajjani has been studying the mechanism of release of these enzymes and cationic proteins from white blood cells. In his award winning paper in the Sama-University of Texas Medical Branch Student Research Forum, he reports that the release occurs from intact viable cells and is not, as previously believed, due to leakage from a dead or dying cell. He also shows that the release of cationic protein is a two-step process - mobilization, followed by actual secretion. The work is supported by the Medical Research Council of Canada and the J. P. Bickell Foundation.

Appointed & Promoted Administration

Robert C. Dolan, Assistant in the Department of Alumni Affairs, has been promoted to Assistant Director. Mr. Dolan joined the Alumni Affairs staff after service in the office of the Faculty of Arts and Science following his graduation from St. Michael's in 1969. During his undergraduate years he worked during vacations in the Office of Admissions.

Arts and Science

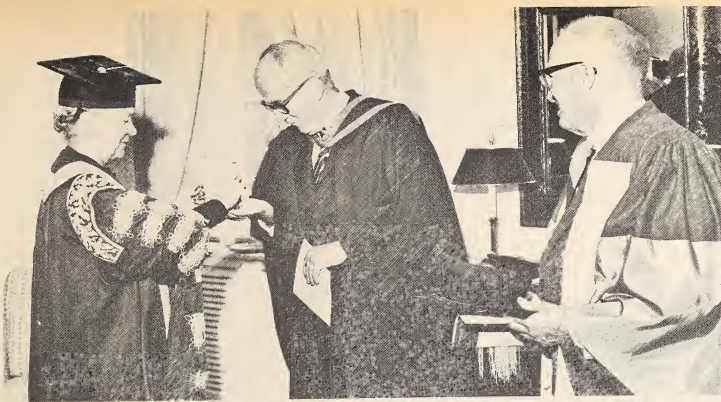

Dr. J. R. Percy has been promoted to associate professor (Astronomy). He will be returning from Cambridge in August.

Music

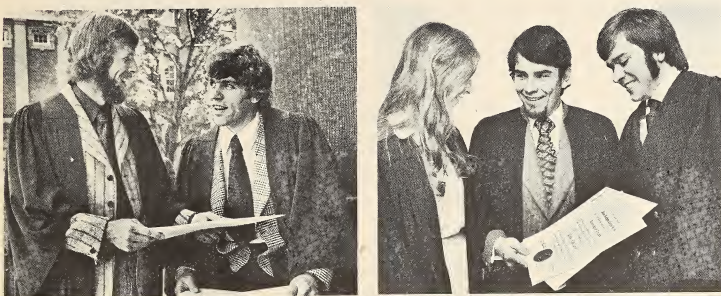

David Keeling has been appointed Assistant Dean (Administration) in the Faculty of Music and will assume his position on July 1. English born, Mr. Keeling received his Master's degree in music from St. John's College, Cambridge. Since emigrating to Canada in 1967, Mr. Keeling has been on the staff of the Office of Admissions, U of T, and at present is Assistant Registrar at Scarborough College.

Applied Statistics

Prof. Daniel B. De Lury (Mathematics) has been appointed Acting Director of the Institute of Applied Statistics for one year from July 1.

The Chancellor settles her bet (five nickels) with Mr. Dickinson, in the presence of Dr. Cannell, honorary graduate.

Star footballers Wayne Dunkley and Corradino Doret

Margaret Coburn, John Cooper Cole, Ralph Charyk

Robert Moses, Ruth Miriam Moses, and her parents, Prof. I. I. Glass and Mrs. Glass

EXHIBITIONS

"Barker Fairley, Professor Emeritus, Scholar, Poet and Painter" to mark his birthday. U of T Library. Through June.

"Joe Plaskett and his Paris - A Search for Time Past" - a National Gallery circulating exhibition. Hart House Art Gallery. Until June 15. Monday to Saturday, 11 a.m. to 5 p.m. Sunday, 2 to 5 p.m.

"Sea Shells, Sand Dollars, Sharks' Teeth" by Markus A. Stasulis - a colourful collection of shells and unusual specimens found in the coastal regions of the Mid-Atlantic and Caribbean by Mr. Stasulis and other members of the Hart House Underwater Club. 2nd floor rotunda, H.H. May 20 to July 20.

"Children of the World". The first Canadian showing of photographs by artist Edward B. Miller. Lower rotunda, ROM. May 31-June 26.

A major exhibition of lithograph drawings, made between 1848 and 1862, after Kriehoff paintings of Canadian scenery. Sigmund Samuel Canadiana Building. Tours every Wednesday at 12:15 p.m. to the end of June. May 10-August 15.

Winning jewellery, designed and crafted by Canadian artists. This display will include the latest forms and styles of diamond jewellery. Mineralogy Gallery, ROM. May 15-June 15.

"It's About Time" - What is time? According to the notions of relativity, it is a fourth dimension. Theatre of the Stars, McLaughlin Planetarium. April 13 to June 24. A collection of bronze sculptures, recently acquired by ROM's Mammalogy Department, by artist Robert Glen of Nairobi, Kenya. Third floor, north gallery. ROM. From May 29.

Even weather smiles for first '73 Convocation

Nearly 400 degrees and diplomas were presented at the first of the 12 Convocations being held this year. It was the day for the Faculty of Medicine and the School of Physical and Health Education. Convocation for graduates of the other health sciences faculties - Dentistry, Pharmacy, Nursing, and Food Sciences - took place the next day.

Chancellor Dr. Pauline McGibbon conferred the honorary degree of Doctor of Laws upon Dr. Douglas E. Cannell and presented M.D. degrees to 204 graduates; a Bachelor of Science (Art as applied to Medicine) to one graduate; Bachelor of Physical and Health Education degrees to 82; diplomas in Medical specialties to 13; Physical and Occupational Therapy diplomas to 83, and diplomas in Speech Pathology and Audiology to 15.

A proud father at the ceremony was Prof. I. I. Glass, Institute of Aerospace Studies, who saw his daughter Ruth Miriam and her husband, Robert Moses, receive medical degrees. Three generations entered the medical profession upon the graduation of John Fordyce Cooper Cole, son of Dr. J. E. Cooper Cole and grandson of Dr. C. E. Cooper Cole, both of whom were present.

Two Varsity football stars received B.P.H.E. degrees: Corradino Doret, voted the most valuable player and winner of the John Copp Trophy, and Wayne Dunkley, all-star league player for the past two years, winner of the Copp Trophy and voted the most valuable player in 1971.

The rain that had drenched the campus earlier in the day ended in time for Convocation and Chancellor McGibbon gladly paid off a small wager she had made with Neville Dickinson, Assistant to the President, on the weather prospects.

Trinity project 'Open windows'

Trinity College is offering a six week workshop for young teenagers during their summer vacations. University-level instructors will offer the workshops to 90 young people between the ages of 12 and 16.

The program, "Open Windows", now in its third year, concentrates on visual and performing arts. Workshops in painting, modelling, macramé, film, music, voice and movement will be given. Guest instructors, such as Canadian stage designer Larry Schaefer, will teach special sessions.

The young teenagers put what they learn from these workshops to use in public performances and exhibitions

throughout the city. Last year's theatre group mounted two productions and took them on tour to downtown Toronto parks and libraries. There are recreational activities and excursions to places like Stratford and Kleinburg.

The entire program costs about \$9,000 and is financially covered by Ontario Youththeatre, Opportunities For Youth, and private donations. The cost for each participant is a \$2 registration fee.

Interested girls and boys can send their names addresses and telephone numbers, with the \$2 fee, to Open Window, Trinity College, Hoskin Ave., University of Toronto, or call 928-2424 between 3 and 4 p.m. for further information.

Ph.D. Orals

All members of the Graduate Faculty have the right to attend Ph.D. Oral Examinations.

Friday, June 8

Stanley D. Cooper, Department of Clinical Biochemistry. "Basic Aspects of Drug Action on the Liver Cell". Thesis supervisor: Prof. G. Feur. Room 108, 16 Hart House Circle. 2 p.m.

Alan George Brown, Department of Physics. "Zeeman Splitting of Quadrupole Levels in K.M.O. Compounds". Thesis supervisor: Prof. R. L. Armstrong. Room 108, 16 Hart House Circle. 10 a.m.

Friday, June 15

Susanne Whalen, Centre for Linguistic Studies. "The Impersonal Sentence in Russian and Romanian: A Case Grammar Approach". Thesis supervisor: Prof. P. H. Saw. Room 107, 16 Hart House Circle. 2 p.m.

Eboe Hutchful, Department of Political Economy. "The Politics of Demilitarisation in Ghana". Thesis supervisor: Prof. R. C. Papp. Room 108, 16 Hart House Circle. 10 a.m.

Thursday, June 21

Miss Joan Cummings, Faculty of Social Work. "Integration of Learning in Graduate

Social Work Education". Thesis supervisor: Prof. C. Lambert. Room 108, 16 Hart House Circle. 2 p.m.

Tai-Chiu Kwong, Department of Biochemistry. "Studies of the Biogenesis of N²-Dimethylguanylate 1973". Thesis supervisor: Prof. B. C. Lane. Room 108, 16 Hart House Circle. 11 a.m.

Staff opening

Chief Librarian

The Faculty of Library Science is seeking a Chief Librarian. Salary: not less than \$13,900 per annum, with fringe benefits. Collection: 50,000 volumes. Full-time staff: 11 including 4 librarians. Degree from an accredited library school and administrative experience required.

Send resume to: Chairman, Selection Committee, Faculty of Library Science, University of Toronto, 140 St. George St., Toronto M5S 1A1.

Deadline for applications: June 30, 1973.

What these girls wore before and what they're wearing now

James H. Murphy, Chief Safety Officer, saw these pictures in the *Sunday Post* of Glasgow, Scotland. Because, in his opinion, they taught a valuable safety lesson, he asked the *Sunday Post* for prints and permission to use them in Canada. The editor was happy to oblige, and here they are.

The two young ladies were wearing the platform shoes in the top picture. Soon after they bought them, the girl on the left fell three times and her friend fell as she stepped off the curb. Each with a broken ankle bone, they have exchanged their new footwear for casts.

An epidemic of breaks and sprains has swept across Glasgow. "The main culprits are these clogs with two inch-plus soles", said a doctor in a casualty ward in the Scottish city.

"It's getting worse every week", the doctor was quoted as saying.

The *Sunday Post* said that ambulance crews reported there was a pattern to the accidents — they occur when girls are running from buses, offices, canteens and other places.

One of the University of Toronto's staff will wear platform shoes in hospital because of platform shoes. She fell in Scarborough College and suffered a broken femur — a serious injury that will incapacitate her for a long time. Mr. Murphy cites this accident as a prime example of the danger inherent in the wearing of this accident-prone footwear. The raised soles force the wearer to bend the knee — when walking she tends to wobble as if on stilts.

Style or safety? Mr. Murphy hopes University women will prefer safety.

3-day Ministry learning seminar

(Continued from page 1)

studies: what will be the incentives?" Dr. R. J. Rossiter, Western Ontario; "The place of physical education and sports in post-secondary learning, tomorrow," Joseph Marko, Mohawk College; "The attitude of taxpayers and legislatures towards the increasing cost of post-secondary learning," J. R. Hartford, United Auto Workers; "Guidance and career counselling at the post-secondary level," Jean-Guy Morisset, Algonquin College; "Post-secondary learning which will meet the needs of students and their potential employers," M. Koerner, president, Canadian Overseas Investments, and Governor, York University; "Will our children need or want educational certificates, diplomas and university degrees?" Prof. John Porter, Carleton.

The discussion groups resume Monday afternoon with the same topics and speakers, but each participant is expected to join a new group. Monday's program concludes with a plenary session at which Sister Catherine Wallace, president, Mount Saint Vincent University, is to speak on "The needs of women at the post-secondary level".

Tuesday's program begins with a plenary session where Prof. Jean-Louis Allard, University of Ottawa, is to speak on "The needs of Franco-Canadians at the post-secondary level", and Prof. R. J. Beishon, The Open University, England, will discuss "The open university versus closed minds".

The remainder of the morning will be devoted to nine discussion groups again: "Public financing of part-time and full-time students at the post-secondary level, tomorrow," Dr. Richard Judy, OISE; "Post-secondary learning in Ontario and Quebec — a comparison," Dean Pierre Mercier, Université de Sherbrooke; "Admission to the practice of a profession, tomorrow," Dr. Philip A. Lapp; "The role of libraries, museums, art galleries, and cultural associations in post-secondary learning," Henry C. Campbell, Chief Librarian, Toronto Public Libraries; "The education and training of teachers for the elementary, secondary and post-secondary levels," Dean V. Ready, MacArthur College of Education; "The delivery of post-secondary learning via mail,

radio, television, computer, and newspaper," Robert L. Williams, Intext Knowledge Industries; "Government control of funds and institutional autonomy," Principal John J. Deutsch, Queen's; "The needs of part-time students," Dean Harry Crowe, Atkinson College; "Higher education — why the monopoly?" Prof. Fraser Isbister, McMaster.

In the afternoon, there are to be closed circuit television programs relevant to the seminar topics, and a plenary session on "The place of the creative and performing arts in post-secondary learning," with Prof. Nicholas Goldsmith, University of Guelph, as speaker. The seminar dinner in the Great Hall that evening will be addressed by Dr. David S. R. Leighton, director, Banff Centre School of Fine Arts.

On Wednesday all of the sessions will be plenary. President T. E. W. Nind, Trent, will speak on "Universities which will meet the needs of individuals and society", and President David Sutherland, Sir Sandford Fleming College, will deal with "Colleges which will meet the needs of individuals and society". Dr. Alan Thomas, OISE, speaks on the topic, "Eliminate the unnecessary barriers to the free flow of students between the four sectors of post-secondary learning", and Prof. Arthur Porter, U of T, deals with the subject, "What shall we do today about post-secondary learning tomorrow?"

Appoint committee to nominate Dean of Men for Victoria University

A search committee to nominate a Dean of Men for Victoria University has been appointed by the Board of Regents. Inquiries and applications should be directed to Prof. J. R. Grant, Department of Classics.

Applicants should have the Ph.D. or equivalent. The Dean exercises general supervision over the men's residences and with the Dean of Women is expected to counsel non-resident students. The appointment permits the incumbent to retain a teaching and research role. Accommodation is provided.

Books sought for use of Vietnam students

In order to help alleviate the shortage of books currently faced by students in Vietnam, the Vietnamese Fraternal Association, Toronto, is collecting textbooks, references, journals and research papers (old and new) in all subjects to send to universities in Vietnam.

Those who have these materials to donate are invited to leave their donations in one of the boxes placed at various locations on the Campus (Sidney Smith Hall, Lash Miller Chemical Laboratories, Burton Tower (Physics), Graduate Students' Union, Galbraith Building, International Student Centre, Medical Sciences Building or to call the following persons to arrange for a pick-up of the donations:

S. V. Hoa, 928-7428 (Mechanical Engineering); T. K. Tran, 928-8725 (Computer Science); 935-3728 (home); T. Vo-Van, 928-5178 (Physics); 925-3522 (home).

ISP awards grants & fellowships to faculty and graduate students

The International Studies Program has awarded grants to two professors and nine Ph.D. candidates, of amounts ranging from \$300 to \$5,000 (average about \$2,300) for research during the 1973-74 session and the summer of 1973. It has also awarded fellowships ranging from \$750 to \$2,250 to eleven Ph.D. candidates for 1973-74. The awards, totalling \$44,155, have been made to "further research relating to international relations and to the particular and comparative study of foreign areas, with primary reference to the modern period".

Grants were awarded to the following Ph.D. candidates: Mrs. N. Cassels, History, for research in India and England; Miss A. Diao, Sociology, for research in Hong Kong; Miss V. Nangia, History, for research in India; C. O. Nwamunor, Anthropology, for research in Nigeria; Donald Ray, Political Economy, for research in Zambia; M. Shima, Anthropology, for research in Korea; R. Tschirgi, Political Economy, for research

SAC protests rental of Arena

Robert Anderson, president of the Students' Administration Council, has released the following statement:

"The Students' Administrative Council is gravely concerned with the negotiations currently proceeding between the University of Toronto and the 'Nationals' franchise of the W.H.A. Facilities for recreation are extremely limited on the University campus, as a result of the protracted delay in the construction of a new men's athletic building. Rental of the Arena by the Nationals would result in the end of the only recreational skating hours currently offered in Varsity Arena and would set an extremely bad precedent for the future disposal of University athletic facilities. The S.A.C. is opposed to any arrangement which does not provide long-term benefits for the University's recreational and intramural athletic programs through the provision of new athletic facilities".

Chairman is sought for Banting and Best

Dr. Irving Fritz's first five-year term as Chairman of the Banting and Best Department of Medical Research will be completed at the end of the present academic year. The Provost has appointed a Committee to nominate a Chairman for the new five-year term.

The members of the Committee are Dean A. L. Chute, Chairman; Dean L. Butler, School of Graduate Studies; Dean G. E. Connell, Faculty of Medicine; Prof. H. W. Bain, Department of Paediatrics; Prof. J. A. Little, Department of Medicine; Prof. J. Logothetopoulos, Banting and Best Department of Medical Research; Prof. M. L. Pearson, Department of Medical Genetics; Prof. B. P. Schimmer, Banting and Best Department of Medical Research; and Prof. R. W. Williams, Department of Biochemistry.

All interested persons in the University community are invited to convey their views to members of the Committee as soon as possible.
